Purpose

The Forest Management Technology with Specialization in Arboriculture and Community Forestry degree program trains individuals who are planning to enter forestry and forestry-related technical positions.

Admission Requirements

Students who meet the admission requirements to the College are eligible for enrollment into the program. Individuals are expected to be proficient in Basic English, mathematics and reading. Appropriate developmental courses are available for those who need to update their skills.

Program Description

This program focuses on theory and practices involved in the establishment, composition and growth of trees and shrubs in an ornamental or urban landscape. Laboratory emphasizes observation and application of various procedures in arboriculture and community forestry including plant, regeneration, and intermediate treatments.

Employment Outlook

Graduates may seek employment with government agencies, non-profit organizations, forest/forest product industries and other sectors. Best opportunities will be available for those who are maintaining physical fitness, adhering to the highest standards of safety, and gaining skills in fire suppression.

Credit hours for degree: 66

TRANSFER OPTIONS

Agreements exist between Dabney S. Lancaster Community College and various four-year colleges and universities. Contact Student Services for information about further study after graduation from DSLCC.

DISCLAIMERS

Every effort is made to ensure accuracy, but the College reserves the right to make edits with respect to course offerings, programs and requirements contained in this publication. This information is provided for the convenience of the reader and DSLCC disclaims any liability.

Please note that not all courses are offered at all locations or during all sessions. Check class sites and times when registering. Most programs of study begin in the fall semester. Please note that while new students are welcome to enroll in any session, those who enter in spring or summer will likely find that completion of requirements may take longer.
